

CAD AND DRAFTING

PRODUCTS/SERVICES

ENGINEERING

Cost-Effective and High Quality with Assurance

CAD AND DRAFTING

3D Modeling and Simulation, Drafting, Steel detailing

CUSTOM-BUILT AND FABRICATION

Products Engineered in Canada and Made in China

VIRTUAL STAFF

Ultimate Outsourcing Solution

VALUE PROPOSITION

SUCCESS & PROFITABILITY

Save big and increase your success

FREEDOM & PEACE OF MIND

Get rid of the tedious works and focus on your core competencies with assurance

SIMPLICITY & SUPPORT

One stop for recruiting, engineering, design and fabrication supported internationally

Computer Aided Design (CAD) and Drafting are essential for engineering, design, and manufacturing. These activities are time-consuming and consist of the significant service cost. Outsourcing is an obvious choice to reduce service cost. However, there are drawbacks associated with sending works out of the country: The works are out of your control and quality is usually a big question.

CADDelite Inc. is a local company with overseas offices. We established an 'improved outsourcing system' that eliminates all the drawbacks of outsourcing and enable our clients to enjoy the benefits worry-free.

SERVICES

FOR ENGINEERS

- PFD and P&ID Drafting
- Civil and Structural 3D Modeling and Drafting
- Electrical Drawing Drafting
- Instrumentation and Control Drawing Drafting
- Mechanical 3D Modeling and Drafting
- Piping Design, 3D Modeling and Drafting

FOR ARCHITECTS

- Interior Design
- 3D modeling and Rendering

FOR CONSTRUCTION AND STEEL FABRICATORS

- Steel Detailing
- Shop Drawing

SOFTWARE

- AutoCAD
- AutoDesk 3ds Max
- CADWorx
- MicroStation
- Photoshop
- SolidWorks
- Tekla Structures

CLIENTS

- Architect Firms
- Engineering Firms
- Manufacturers
- Plants
- Construction Firms
- Steel Fabricators
